½ Scale paper Model Instructions

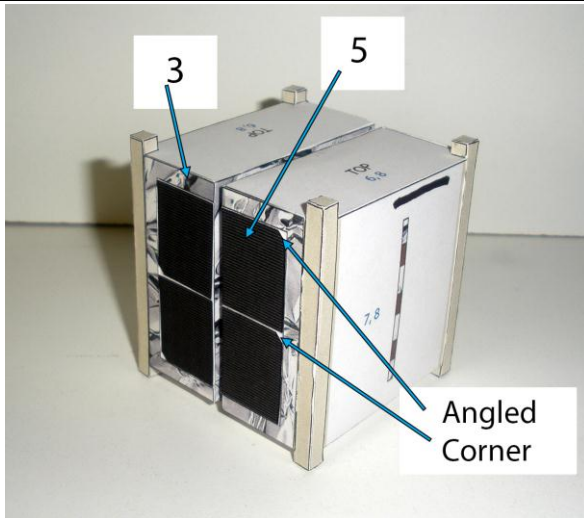

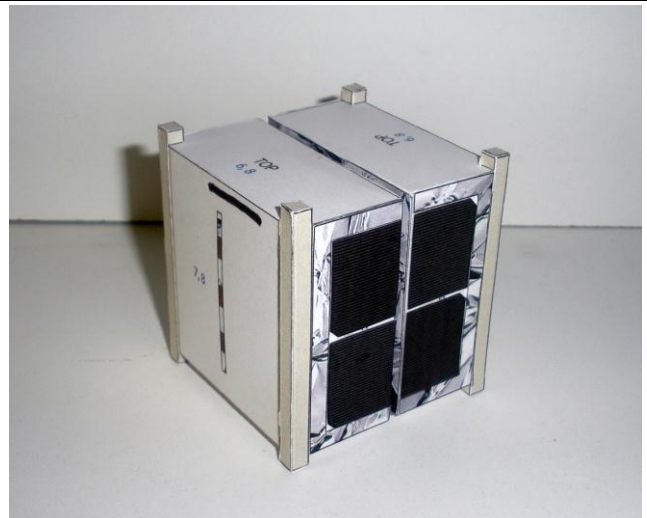

Ends on part **2** are folded into boxes. Glue only to the shaded corners on parts **1a** and **1b**. **Part 4** acts as a spacer.

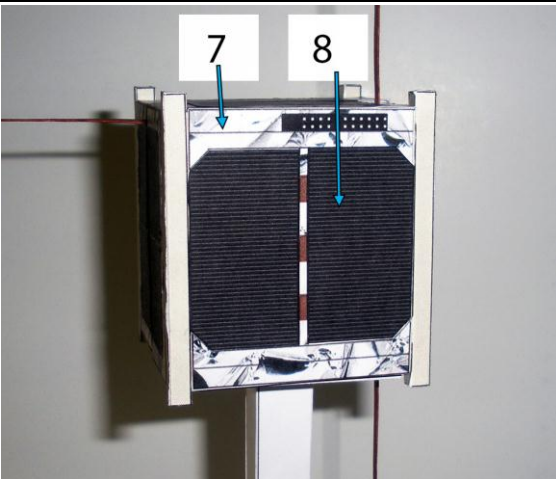

Glue both halves together, match both 'TOP' sides.

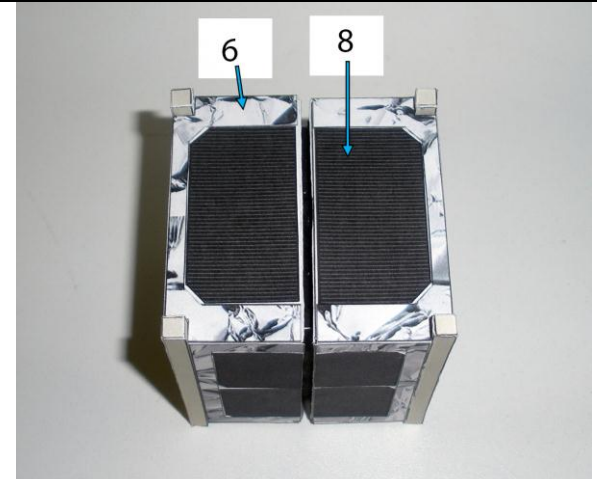

3 and 5 are glued to the sides marked "5". Follow the angled corner notes printed on the body when gluing the solar cells (Part 5).

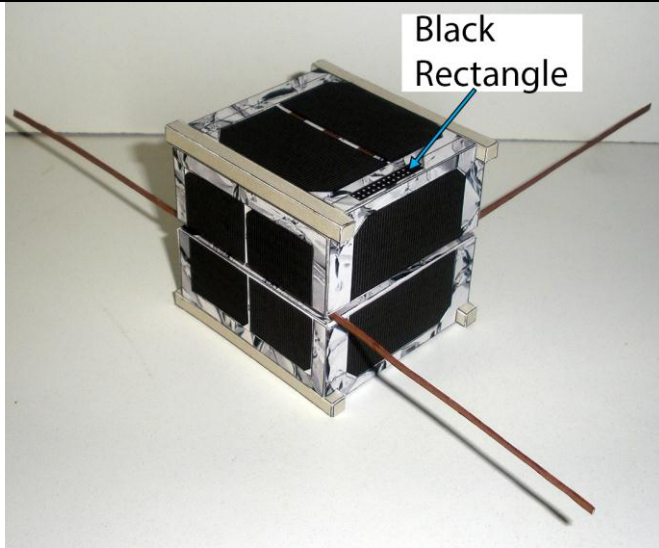

The other side.

7 and 8 are glued on the sides marked "7, 8". Match part 7 with the black rectangle to the side with a black rectangle printed on the body.
Solar cells should fit in the middle as shown.

These are glued on the TOP and BOTTOM as shown.

Glue the antennas as shown – note the position of the black rectangle.

These are inserted and glued into the space between both halves of the body.

The long antenna is in the fore ground of the photo, the short antenna in the back of the photo.

Your model is done.
