

# TigriSat

## 1/3 Scale paper Model Instructions

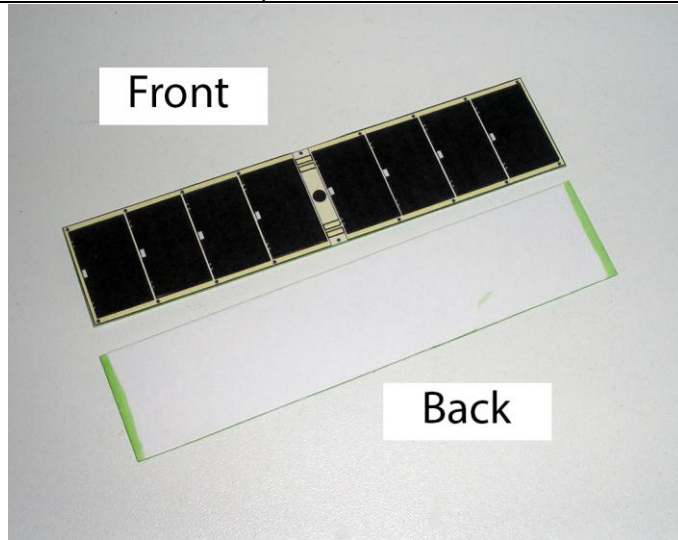

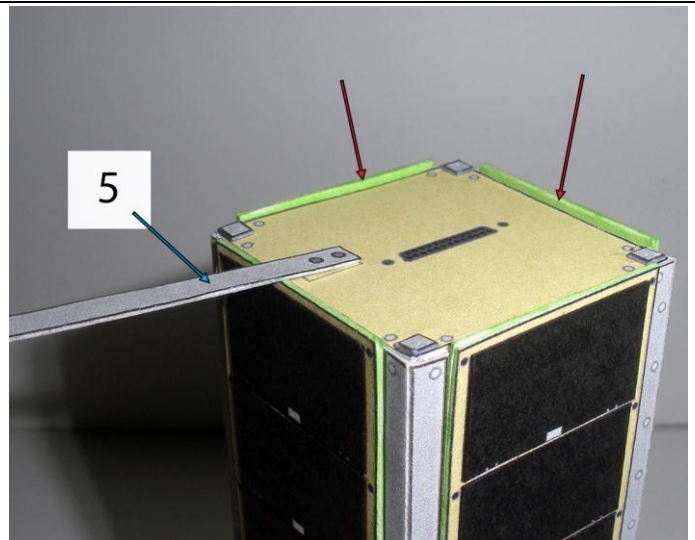

Fold 2 to "L" shape, glue on the areas marked "2".  
Glue 4 as shown on top and bottom.

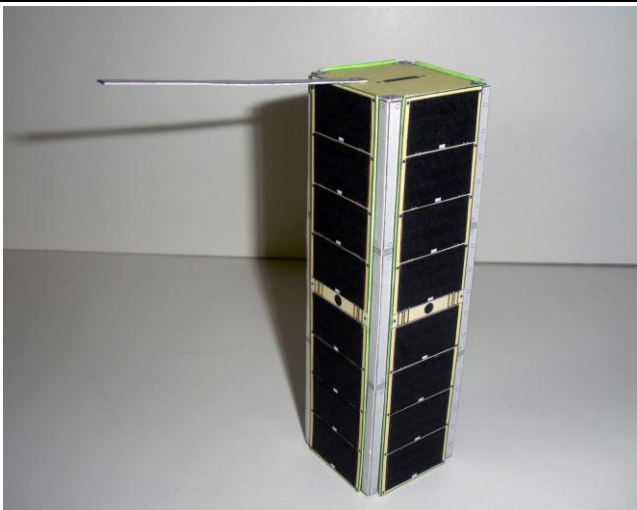

Fold 3 to "L" shape and glue on the areas marked "3".

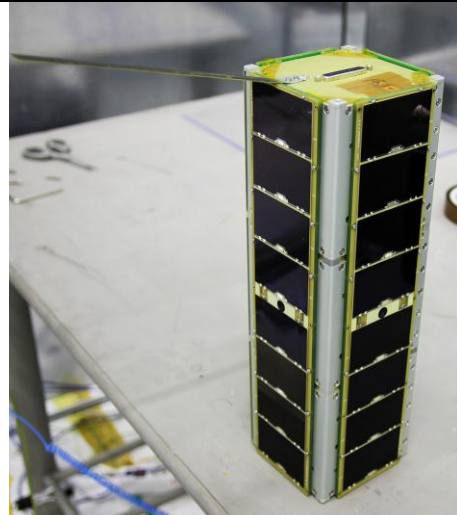

Color edges and backside of these green as shown. Can glue the optional detail parts if desired.

Glue the solar panels onto the spacecraft, they will extend slightly over the top and bottom as marked by the red arrows. The white rectangle on the solar panels should be on the bottom. Glue 5 on the top as shown.

Your model is done.

The real thing.
